Comments: (If possible, please reference section and/or page number in document if applicable.)

Unsafe transportation - that is - untested
unreliable containers through metropolitan areas
on highways & railroads that are accident-
prone. Not a safe mode

Keep spent rods at their site.

In case of an accident, event, or whatever
the name - catastrophe is, NOT conclusive
to the human race. Not for something that
has a half-life of 10,000 years

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible, then secure with tape.
